The readers of this paper will be
pleased to learn that there is at least
one dreaded disease that science has
been able to cure in all its stages and
that is catarrh. Catarrh being greatly
influenced by constitutional conditions
requires constitutional treatment. Hall's
Catarrh Medicine is taken internally and
acts thru the blood on the mucous sur-
faces of the system thereby destroying
the foundation of the disease, giving the
patient strength by building up the con-
stitution and assisting nature in doing its
work. The proprietors have so much
faith in the curative powers of Hall's
Catarrh Medicine that they offer One
Hundred Dollars for any case that it fails
to cure. Send for list of testimonials.

Hay's Opinion

Chairman Hays of the Republican National Committee ap-
pears to be strong for patriotism—of a kind. Speaking to a state
committee at Columbus, he is quoted as saying that the war must
be won and the country saved, and that it can be done only by
the Republican party.

Wherein Chairman Hays resembles much the Indian who
liked any color so long as it was red.—Toledo News-Bee.

Gov. James M. Cox

The filing with the secretary of state of the formal certificate
of candidacy for renomination of Governor Cox, the welcomed as-
surance that the governor will run again for the office he is now
filling for a second term with general satisfaction, is accompanied
with his statement that he is not seeking office as a party leader,
but is tendering his services as a leader in the war work of the
state. He will not engage in any scramble for renomination or
re-election, nor will he engage in any sort of political campaign.

This is the day when politics is adjourned, as President Wil-
son recently said to members of congress. If the elections will
go to those who in forgetting politics render the service this time
calls for, as the president pointed out, we shall witness the re-
election of Governor Cox, who has rendered a large service in
Ohio war work in addition to administering the affairs of state.
In this war work he has forgotten politics and called men of dif-
ferent parties to aid, and there has been most satisfactory co-
operation. There is no call for a change in state administration;
on the contrary, there is public opinion widely expressed in favor
of continuing the present efficient administration to assure the
state its further commendable part in war service. Ohio never
before was called upon to do so much, and how well the state has
discharged its duty is known of all and appreciated to the extent
of extending credit where it belongs. Renomination and re-
election of Governor Cox are due him because he has earned fur-
ther recognition by distinguished and unselfish service, but
greater than this consideration in the coming campaign is the
state's interest to be served by one well fitted by disposition and
experience to carry on a work that challenges all to the best
endeavors.—Youngstown Vindicator.

VOTE TO INCREASE
NAVY PERSONNELHouse Members Accept Amend-
ment to Naval Bill.

REJECT PROMOTION PROPOSAL

Amendment to Create Rank of Lieut-
enant General For Marine Corps
Commandant and of Major General
For the Corps Staff Officers Is Dis-
approved, 73 to 44—Members De-
fend General Barnett.

Washington, June 19.—The pro-
posal to create the rank of lieutenant
general for the marine corps com-
mandant and of major general for the
corps staff officers was disapproved
by the house, which voted during con-
sideration of senate amendments to
the naval appropriation bill to in-
crease permanently the navy person-
nel from 37,000 to 131,486 men.

Spirited debate preceded the rejec-
tion of the senate's marine corps
amendment, Representative Butler of
Pennsylvania, Republican, whose son

is a colonel in the corps, said propa-
ganda had been conducted to cause
the promotions, while Representative
Keating of Colorado, Democrat,
charged that Major General Barnett,
the corps commandant, started a
campaign for the new law as soon
as the naval bill was sent to the sen-
ate, in spite of Secretary Daniels
known opposition to the amendment.
"The amendment in effect, is to
give the rank of lieutenant general
to a man who never was under fire,
so far as the records show," declared
Mr. Keating. "There has been a lob-
by by men directly concerned in this
amendment strong enough to want
the president to order a court-mar-
tial. It is not the men who are
going 'over the top' in France who
are asking for the amendment. I am
in favor of giving the men who are
doing the fighting recognition before
giving it to these rocking-chair sol-
diers."

General Barnett, who was a specu-
lator in the house gallery during
most of the debate, was defended by
Representative Flood of Virginia,
Democrat, and Britten of Illinois
and Meeker of Missouri, Republicans.

AN APPEAL TO HOUSEWIVES

Watch Garbage Pail and Keep
It Free From All Tin Cans
and Other Rubbish.

MRS. HOUSEKEEPER:

Don't waste or burn your garbage.
It is valuable.

One Ton of GARBAGE Contains:

Sufficient glycerine for the explo-
sive charge of fourteen 75 millimeter
shells.

Sufficient "fatty acid" for the man-
ufacture of 100 12-ounce cakes of
soap.

Sufficient fertilizer elements to grow
eight bushels of wheat.

A score of other materials valuable
in munition making.

If Used as Hog Feed Will Produce

One hundred pounds of good, firm,
first quality pork. Can you afford to
destroy the valuable products when
your government needs them to help
win the war?

The United States Food Adminis-
tration Urges Every Housewife

To be watchful and what goes into the
garbage pail; to put less in and take
more out. But what must go into
the pail should be kept separated
from other household refuse, so that
it can be utilized either for making
munitions or for hog feed. Do not
permit broken glass, crockery, phono-
graph needles or other foreign sub-
stances to get into the garbage pail.

REMEMBER, GARBAGE IS VALU-
ABLE—KEEP IT CLEAN.

campaign for the utilization of gar-
bage has been inaugurated by the
United States Food Administration to
reclaim millions of dollars' worth of
material now being wasted and to
urge upon housekeepers the necessity
for keeping garbage (kitchen and
table refuse) in a separate container
from other house refuse.

Figures and statistics issued by the
Food Administration show that in one
ton of garbage there is sufficient
glycerine to make the explosive
charge for fourteen 75 millimeter
shells, enough "fatty acid" to man-
ufacture 75 pounds of soap, fertilizer
elements to grow eight bushels of
